IBS → Dekho, IBS me score karna is a must for you

IBS is not difficult, rarely anyone fails. But it sets the aggregate → score 60+ here.

Don't aim to pass, aim for exemption.

CA Final · Paper 6 · Fri 13 Nov 2026 · 2 to 6 PM · CA Padam Bhansali | My Student Club

Why IBS decides the result

Group 2 = DT + IDT + IBS → 40 in each + 150 out of 300 total

e.g. DT 45 + IDT 52 = 97 → IBS 50 → 147 (group atka)

→ IBS 60 → 157 (group clear)

My Story → I scored 80 studying 1.5 days. How?

→ Index = best friend (didn't study IBS like other papers)

→ 1 hour per case, fixed

→ Practice with a friend

Format of Paper

→ 4 hours (2–6 PM) + 15 min reading time (from 1:45)

→ 5 Case Studies → attempt any 4 → 25 marks each

→ Every case → 5 MCQs = 10 marks (2M each)

→ Every case → Descriptives = 15 marks (usually 3 × 5M)

Time per case = 1 hour

	Per question	Total
5 MCQs	3 min = 1 find concept + 2 solve	15 min
3 Descriptives	15 min = 5 find concept + 10 write	45 min
Case		60 min

Write it on the QP: C1 2:00–3:00 · C2 3:00–4:00 · C3 4:00–5:00 · C4 5:00–6:00

Problems → Solutions

Problem	Solution
Time Mgt	Fix 1 hour per case. At 60 min → next case, always. Use the index, don't read the book.
Law, Costing	Index ratta maaro (name the chapter from the words). Study imp topics. Costing → know the SM illustration types.
Practice	Get a friend. Solve as many case studies as possible, 1-hour timer. Join group (MSC WhatsApp community).

Imp Points :-

→ If nahi ho raha within time → leave space, move to next. Come back at the end.

→ If aata hai without book → toh save time and write without book hi.

→ For practical → try finding a similar practical in the SM, replace figures.

→ Never leave blank → provision + case facts + conclusion = some marks always.

→ Finish a case fully, its 5 MCQs too, then the next case. Never leave all MCQs for the end.

→ One search = 2–4 min max → then leave space, move on.

→ Found the topic? Don't copy word to word → write keywords only.

→ Practice: don't write answers. Find topic + page in notes, think what you'd write, compare. Quick, many cases.

→ Attempt 90–100 marks. Failed copies had 15–20 marks blank.

→ 1 mark = 1 point. Conclusion has its own mark.

How to write a descriptive (5 marks)

1. Provision / concept → 2 lines (section, Ind AS, SA no. if you know it)
2. Apply to the case → use the company's name & figures
3. Conclusion → "Hence, ..." (clear yes / no / amount)

Examiner should feel you read THIS case, not copied the book.

Flow you have to follow

Think → what is this question really testing?

→ Chapter + topic clear → open SM / book directly, no index

→ Only chapter clear → chapter-wise index (SM / faculty) → page → write

→ Unsure → A-Z Index → search the keyword → page → write

Know it without the book? → skip the book, write directly.

e.g. 1

"volume rebate if the customer buys above 10,000 units"

→ Think: revenue kam hoga → Ind AS 115, variable consideration

→ Chapter clear → FR index → "variable consideration" → write

e.g. 2

"company wants to raise ECB while under insolvency"

→ Think: ECB = FEMA? insolvency = IBC? → unsure

→ A-Z index → "ECB" → Law, FEMA part → write

Use of First 15 Min (reading time, 1:45–2:00)

1. Don't read the full case. Read only the **questions** of all 5 cases.
2. Next to each Q write subject + chapter (FR - Ind AS 116, Law - oppression...)
3. Not sure? Put a "?"
4. Case with the most "?" (2 of 3 descriptives not clicking) → woh skip, don't reopen it
5. Judge on descriptives (15 marks), not MCQs
6. Start with the strongest case → confidence → flow

Analysis of Topics Asked (6 papers, May 24 → May 26)

Marks by subject (all 5 cases, out of 125)

	May 24	Nov 24	May 25	Sep 25	Jan 26	May 26	Avg
IDT	19	30	23	18	20	16	21
DT	27	17	17	19	15	24	20
