Detailed Index - AFM Concept Book

Chapter and Topic	Page No.
SECTION A: PRACTICAL CONCEPTS	
Basics of AFM	
Ratio Analysis	1
Interpretation of Dividend	5
Interpretation of Interest Rate	5
Basic Mathematics	6
Time Value of Money	9
Chapter-1 Financial Policy and Corporate Strategy	
No Practical Concepts in this Chapter. Theory concepts of this chapter are covered in Section B of this book.	15
Chapter-2 Risk Management	
Standard Normal Distribution Table	16
Value At Risk [VAR]	18
Chapter-3 Advanced Capital Budgeting Decisions	
Part I: Introduction to Capital Budgeting	
Techniques used in Capital Budgeting Decisions	19
Impact of Inflation on Capital Budgeting Decisions	21
Part II: Techniques of Risk Analysis in Capital Budgeting	
Conventional Techniques	22
Sensitivity Analysis Techniques	23
Statistical Techniques	25
Decision Tree Analysis Techniques	30
Part III: Other Decisions	
Replacement Decision	31
Selection of Asset using Equivalent Annual Cost [EAC]	33
Optimum Replacement Cycle	33
Part IV: Real Options	
Meaning & Types of Real Options	34
Timing Option	34
Abandonment Option	35

Growth Option	35
Chapter-4 Security Analysis	
Meaning & Approaches of Security Analysis	36
Decision Making by Technical Analysts Using Moving Averages	36
Efficient Market Theory / Hypothesis	37
Chapter-5 Security Valuation	
Part I: Introduction to Security Valuation	
Meaning of Security Valuation	40
Required Rate of Return on Security using CAPM [Also known as Expected Return]	40
Part II: Valuation of Equity Shares	
Models for Valuation of Equity Shares	41
Dividend Based Models	41
Earing Based Models	45
Valuation of Rights	46
Part III: Valuation of Bonds [Fixed Income Securities]	
Bond Pricing	47
Bond Yield	50
Bond Forward Rates [Term Structure Theory]	52
Bond Duration	52
Bond Immunization	54
Bond Refunding	54
Convertible Bond	56
Money Market Instruments	57
Part IV: Miscellaneous Topics	
Find Raising Decision	59
External Find Requirement [EFR]	59
Effect of New Project or Expansion Scheme on Price of Share of Company	59
Chapter-6 Portfolio Management	
Part I: Modern Portfolio Theory (MPT) by Markowitz	
Expected / Average Return & Risk of a Single Security	60
Expected / Average Return of Portfolio	63
Risk of Portfolio	64
Minimum Risk Portfolio [Minimum Variance Portfolio]	67
Markowitz Efficient Portfolio	68

Part II: Capital Market Theory (CMT) By Sharpe	
Capital Asset Pricing Model [CAPM] Equation	69
Beta	71
Portfolio Beta Management	76
Sharpe Index Model / Single Index Model [Systematic & Unsystematic Risk]	77
Market Lines	78
Sharpe Optimum Portfolio	79
Part III: Other Topics	
Arbitrage Pricing Theory Model [APT]	80
Portfolio Evaluation	81
Portfolio Rebalancing	82
Stock Lending Scheme [SLS]	85
Points to Remember in Portfolio Chapter	86
Chapter-7 Securitization	
No Practical Concepts in this Chapter. Theory concepts of this chapter are covered in Section B of this book.	88
Chapter-8 Mutual Funds	
Part I: Introduction to Mutual Funds	
Meaning of Mutual Funds	89
Classification / Types of Mutual Funds	90
Part II; Net Asset Value of Mutual Fund	
Meaning of NAV [Net Asset Value] of Mutual Fund	91
Calculation of NAV [Net Asset Value] of Mutual Fund	91
Issue Price & Repurchase Price p.u. of Mutual Fund	93
Part III: Returns from Mutual Fund	
Holding Period Return / Yield	94
Annual Return / Annualised Yield / Average Yield / Effective Yield per annum	95
Part IV: Other Topics	
Evaluation of Mutual Funds	95
Return that Mutual Fund should earn so that Investor will be Indifferent on Direct Investment through Stock Market or Indirect Investment through Mutual Fund	96
Fee Calculation of Hedge Fund Manager	96
Chapter-9 Derivatives Analysis and Valuation	
Part I: Introduction to Derivatives	

Meaning of Derivatives	97
Participants in Derivative Contracts	98
Classification of Derivatives on the basis of Underlying Assets	98
Types of Derivatives Contracts	98
Part II: Forwards & Futures [Equity Derivatives]	
Meaning of Forwards & Futures	98
Pricing of Forwards & Futures	98
Gain / Loss [Play off] on Future Contracts	101
Types of Margin in Future Contracts	102
Hedging Using Futures	104
Arbitrage Using Futures	106
Part III: Options [Equity Derivatives]	
Meaning of Options	107
Gain / Loss [Pay off] on Options	107
Expected Value of Option at Maturity	109
Value of Option at Beginning [Fair Option Premium / Fair Value of Option]	109
Part IV: Swaps [Equity Derivatives]	
Equity Swap	115
Part V: Commodity Derivatives	
Meaning of Commodity Derivatives	115
Hedging Commodities using Commodity Futures	115
Chapter-10 Foreign Exchange Exposure and Risk Management	
Foreign Exchange Rate Quotation	117
Process in Foreign Exchange Market	119
Types of Exchange Rate in Forex Market	119
Methods for Calculating Annual Premium or Discount (%)	126
Calculation of forward Rate on the basis of Annual Premium / Discount	127
Methods for Calculating Estimated forward Rate OR Expected Spot Rate	129
Fate of Forward Contract (Forward Contract Settlement)	132
Foreign Currency Risk Hedging Techniques	134
Arbitrage Process in Forex	144
International Cash Management	150
Where to Borrow	151
Where to Invest	152

Exchange Position and Cash Position (Nostro A/c)	153
Foreign Exchange Exposure	155
Currency Swap	155
Chapter-11 International Financial Management	
Part I: International Sources of Finance	
Global Depository Receipts [GDRs]	157
Part II: International Capital Budgeting	
International Capital Budgeting Decisions	158
Decision making for Foreign Company developing Product (Software) in India	159
Part III: Investment in International Securities Market	
Return on Investment in International Securities Market	160
Chapter12 Interest Rate Risk Management	
Part I: Introduction to IRRM	
Types of Interest Rates	162
Part II: Forward Rate Agreements [FRA]	
Meaning of FRA	163
Final Settlement [Profit or Loss] on FRA	164
Theoretical (Fair) FRA Rate	164
Part III: Interest Rate Futures [IRF]	
Interest Rate Futures having Zero Coupon Bond as Understanding	165
Interest Rate Futures having Coupon Bearing Bond as Underlying	166
Part IV: Interest Rate Options [IRO]	
Interest Rate Guarantee	167
Cap Options & Floor Option	167
Part V: Interest Rate Swaps [IRS]	
Meaning of Interest Rate Swap	168
Types of Interest Rate Swap	169
Use of Interest Rate Swap to Reduce the Cost of Borrowing	169
Chapter-13 Business Valuation	
Part I: Introduction to Business Valuation	
Meaning of Business Valuation	171
Basics of Business Valuation	171
Part II: Approaches of Valuation	
Market Based Models	172

Assets Based Models	173
Income (Earning) Based Models	173
Cash Flow Based Models	174
Relative Valuation Models	176
Part III: EVA & MVA	
Economic Value Added [EVA]	178
Market Value Added [MVA]	180
Part IV: Other Topics	
Valuation of Digital Platforms	180
Valuation of Distressed Companies	181
Valuation of Startups	182
Chapter-14 Mergers, Acquisitions & Corporate Restructuring	
Part I: Introduction to Mergers, Acquisitions & Corporate Restructuring	
Meaning of Corporate Restructuring	184
Basics of Mergers & Acquisitions [M & A]	185
Part II: Mergers & Acquisitions through Shares Offer	
No. of Equity Shares of Acquirer to be issued to shareholders of Target	186
Best Merger Book Value [Book Value After Merger]	187
Post Merger Earnings [Earnings After Merger]	188
Post Merger Market Value [Market Value After Merger]	188
Value of Original Shareholders	190
Maximum Exchange Ratio Acceptable to Acquirer Company	190
Minimum Exchange Ratio Acceptable to Target Company	191
Part III: Mergers & Acquisitions through Cash Offer	192
Cash to be paid to shareholders of Target Company	192
Post Merger Book Value [Book Value After Merger]	193
Post Merger Earnings [Earnings After Merger]	193
Post Merger Market Value [Market Value After Merger]	193
Maximum Cash Per Share Acceptable to Acquirer Company	194
Minimum Cash Per Share Acceptable to Target Company	195
Part IV: Other Calculations in Mergers & Acquisitions	
Value of Acquisitions	196
Financial Feasibility of Acquisition	196
Part V: Other Types of Corporate Restructuring	

Demerge	197
Reconstruction [Financial Restructuring]	197
Stock Split Up	198
Bonus Issue	198
Equity Buyback OR Share Repurchase [Ownership Restructuring]	199
Chapter-15 Startup Finance	
No Practical Concepts in this Chapter. Theory concepts of this chapter are covered in Section B of this book.	
SECTION B: Theory Concepts	
Chapter-1 Financial Policy and Corporate Strategy	
Advanced Role of CFO in Various Matters including Value Creation	201
Strategic Financial Decision-Making Framework	201
Strategy at Different Hierarchy Levels	201
Financial Planning	202
Interface of Financial Policy and Strategic Management	202
Sustainable Growth	202
Chapter-2 Risk Management	
Types of Risk Faced by an Organization	204
Evaluation of Financial Risk	204
Methods for Identification and Management of Financial Risk [Classification of Financial Risk]	204
Value At Risk [VAR]	206
Chapter-3 Advanced Capital Budgeting Decisions	
Sensitivity Analysis	208
Simulation Analysis	208
Chapter-4 Security Analysis	
Meaning and Approaches of Security Analysis	209
Fundamental Analysis	209
Technical Analysis	210
Efficient Market Theory (Efficient Market Hypothesis)	211
Chapter-5 Security Valuation	
Duration of Bond	213
Zero Coupon Bonds (ZCB)	213
Role of Valuers	213

Responsibilities of Valuers	213
Chapter-6 Portfolio Management	
Objectives of Portfolio Management	214
Capital Asset Pricing Model (CAPM)	214
Factors Affecting Decision of Investment in Fixed Income Securities	214
Portfolio Revision and Rebalancing	215
Asset Allocation Strategies	215
Alternative Investment Avenues	215
Chapter-7 Securitization	
Features of Securitization	216
Benefits of Securitization	216
Participants in Securitization	216
Mechanism of Securitization	217
Problems in Securitization [Reasons for Dismal Growth of Securitization]	218
Securitization Instruments	218
Pricing of Securitized Instruments	218
Risks in Securitization	219
Tokenization	219
Blockchain [Distributed Ledger Technology (DL T)]	220
Chapter-8 Mutual Funds	
Establishment of Mutual Fund	221
Advantages & Disadvantages of Mutual Funds	221
Special Funds	221
Exchange Traded Funds [ETF]	222
Side Pocketing	222
Tracking Error	222
Evaluation of Mutual Funds	223
Role of Fund Managers in Mutual Funds	223
Chapter-9 Derivatives Analysis and Valuation	
Marking to Market	224
Advantages of Stock Index Futures Trading Vs. Stock Futures Trading	224
Moneyness of Options	224
Assumptions of Black Scholes Model	224
Options Greeks	224

Exotic Options	225
Necessary Conditions of Commodity Derivatives	225
Credit Derivatives	226
Weather Derivatives	227
Electricity Derivatives	227
Derivative Mishaps and Lessons	227
Chapter-10 Foreign Exchange Exposure and Risk Management	
Money Market Hedging	228
Nostro, Vostro and Loro Accounts	228
Foreign Exchange Exposure	228
Strategies for Exposure Management	228
Chapter-11 International Financial Management	
International Sources of Finance	230
Advantages & Disadvantages of Foreign Currency Convertible Bonds (FCCBs)	230
Impact of GDRs on Indian Capital Market	230
International Financial Centre	231
Sovereign Funds [Sovereign Wealth Fund (SWF)]	232
Objectives of International Cash Management	232
Chapter-12 Interest Rate Risk Management	
Types of Interest Rate Risk	233
Methods of Hedging Interest Rate Risk	233
Forward Rate Agreements (FRA)	234
Swaptions	234
Chapter-13 Business Valuation	
Relative Valuation	236
Differentiate between Economic Value Added (EVA) and Market Value Added (MVA)	236
Going Concern and Non-Going Concern Valuation	236
Valuation of Professional or Consultancy Firms (Chartered Accountants, Advocates, Management Consultancy Firms)	236
Impact of ESG on Valuation	237
Chapter-14 Mergers, Acquisitions & Corporate Restructuring	
Synergy in Mergers and Acquisitions	238
Forms (Types) of Mergers	238
Takeover Strategies and Defensive Tactics	238

Divestment /Divestiture/Demerger	239
Unlocking Value through Mergers, Acquisitions & Business Restructuring	239
Chapter-15 Startup Finance	
Startup India Initiative	240
Innovative Ways to Finance a Startup	240
Pitch Presentation	241
Concept of Unicorn	241
Modes of Financing for Startups	242
Why India became Sustainable Environment for Startups to Thrive in	245
Succession Planning in Business	246
