Discuss/Explain/Analyze	15
Advise/Suggest/Recommend	11
Support/Defend/Do you agree	5

③ Practical Takeaways to solve L2/L3 Questions:

① Use concept to solve → Refer book to verify

② Answer to ✓ Rule/model → Case facts → Application

× Rule → Rule → Rule

③ Match answers to command words: Compute Vs Discuss Vs Recommend.

Hence; Recommendation if asked, only then required

④ Read case wholistically, but solve Qs with its own dominant facts / requirements.

(4) Examiner Comments: Descriptive Qs

> Performance low in application/evaluation based Qs

> Several Q. student simply reproduce the rule/provision with no correlation to facts, no interpret, no conclusions. workings also not shown in several cases

> Even if OP/subject is multidisciplinary, each q. assesses a distinct technical skills.

> FR: Poor performance of Qs on less tested topics like in 102 (surrender of options), Lease modification, franchise-invst

> AUDIT: Average overall performance.
Issues in conceptual identification/application like applicable tech. risks, TOS Vs TOC, which special Std. applies
: Answers generic in nature / broadly worded

> Most poor performance Qs were from SIMPE then FR
